Reaching Another In Need

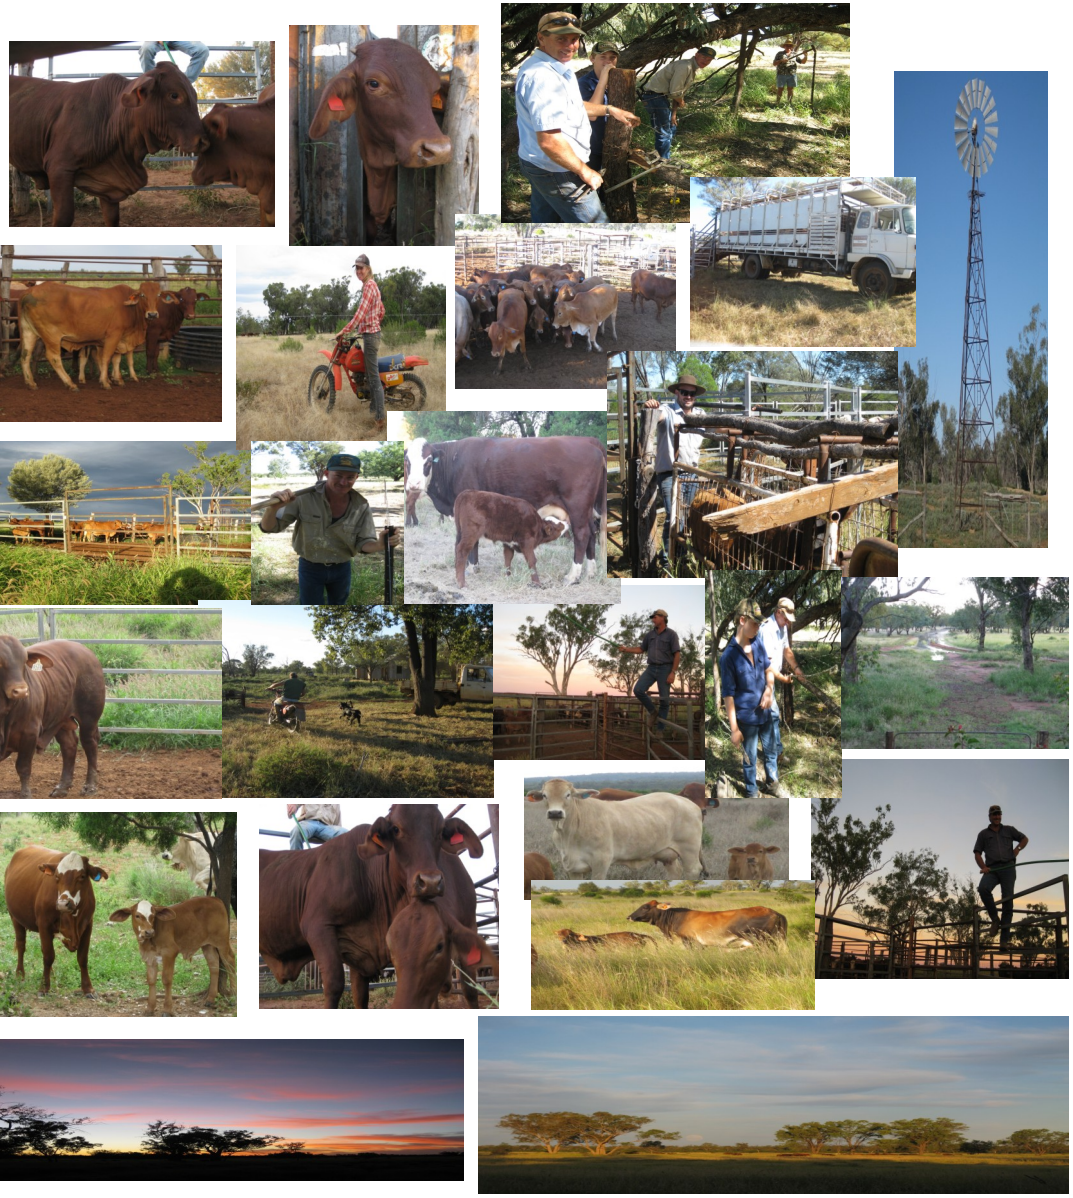
Rain..... Thank God for His Rain!
What an amazing season it has been, for the project, for the West.

The Rain Project, (which is all about Reaching another in need), was launched nearly a year ago.
We now have 1 bull, 40 cows and over 20 calves on the ground.
Amazing!

Thanks to everyone who has taken part in the project. It has been a honour and privilege to watch the vision take shape! Without you it would not have happened.

The RAIN project committee has been able to locate funds to a number of areas already. This has been made possible by some people making monthly donations and others selling some of their own cattle on behalf of the Rain Project. Again thank you.

Funds for fuel have be given to Care Outreach workers, John & Linda Worrell, and Keith & Jenny Philbrook, who have been part of 'Christmas in the Bush' for quite a few years now.
Support was given in September to Western Harvest Ministries , (Graham & Amanda Waterson), for running Children's' holiday programs in Quilpie.
Help was given to flood effected persons in Charleville in March, and Mark was able to deliver food from Bundaberg Global Care to Miles area for flood relief.
The Project also funds breakfast in the local schools.

As you can see already the project has made an impact in the Outback.
It excites us to think of what we will be able to do in the years ahead as the herd continues to increase and the calves sold.


It takes a team of people to make this happen, thank you to volunteers who have helped Mark fix fences, muster, brand calves etc and thank you to Drysdale Ponds and West Hill for the cattle you run for the project.. Thank you to all who believed in the vision and ran with it,.
But most of all thank you to our Lord and Saviour, our soon coming King Jesus Christ! He has done exceedingly about all we could ask or think!
